

**Lighting**  
is everything

A solid orange horizontal bar that starts behind the word 'Lighting' and extends across the right side of the page.

Our factory covers an area of -10000 30000 square meters, including the die-casting works hop, stamping workshop, and assembly workshop.

Our greatest advantage is to design, Development and production, creative, high-tech LED lights. No matter what kinds of LED lights you want, just tell us your demand, the best solution would be provided by our professional engineers.

# Make Inspiration Collide

The magnetic system has the flexibility to adapt to every new situation and react to changing requirements in a room - whether you want to evenly light an entire wall or accentuate a particular object. Maximum flexibility within the room is ensured since no tools are needed for adjustment spots are easy to swivel and tilt, and beams can be focused.

## We Love Design & Focus on Quality

RTC Lighting Co., Ltd. was founded in 1992 in Tripoli, Libya, focusing on researching, development and production of lighting including led down lights, led track lights, led wall lights, led ceiling lights, led pendant lights and led magnetic lamp, sales and services of manufacturers.

We have experienced staff, with strict quality control and considerate customer service, at any time to discuss your requirements, to ensure full customer satisfaction.

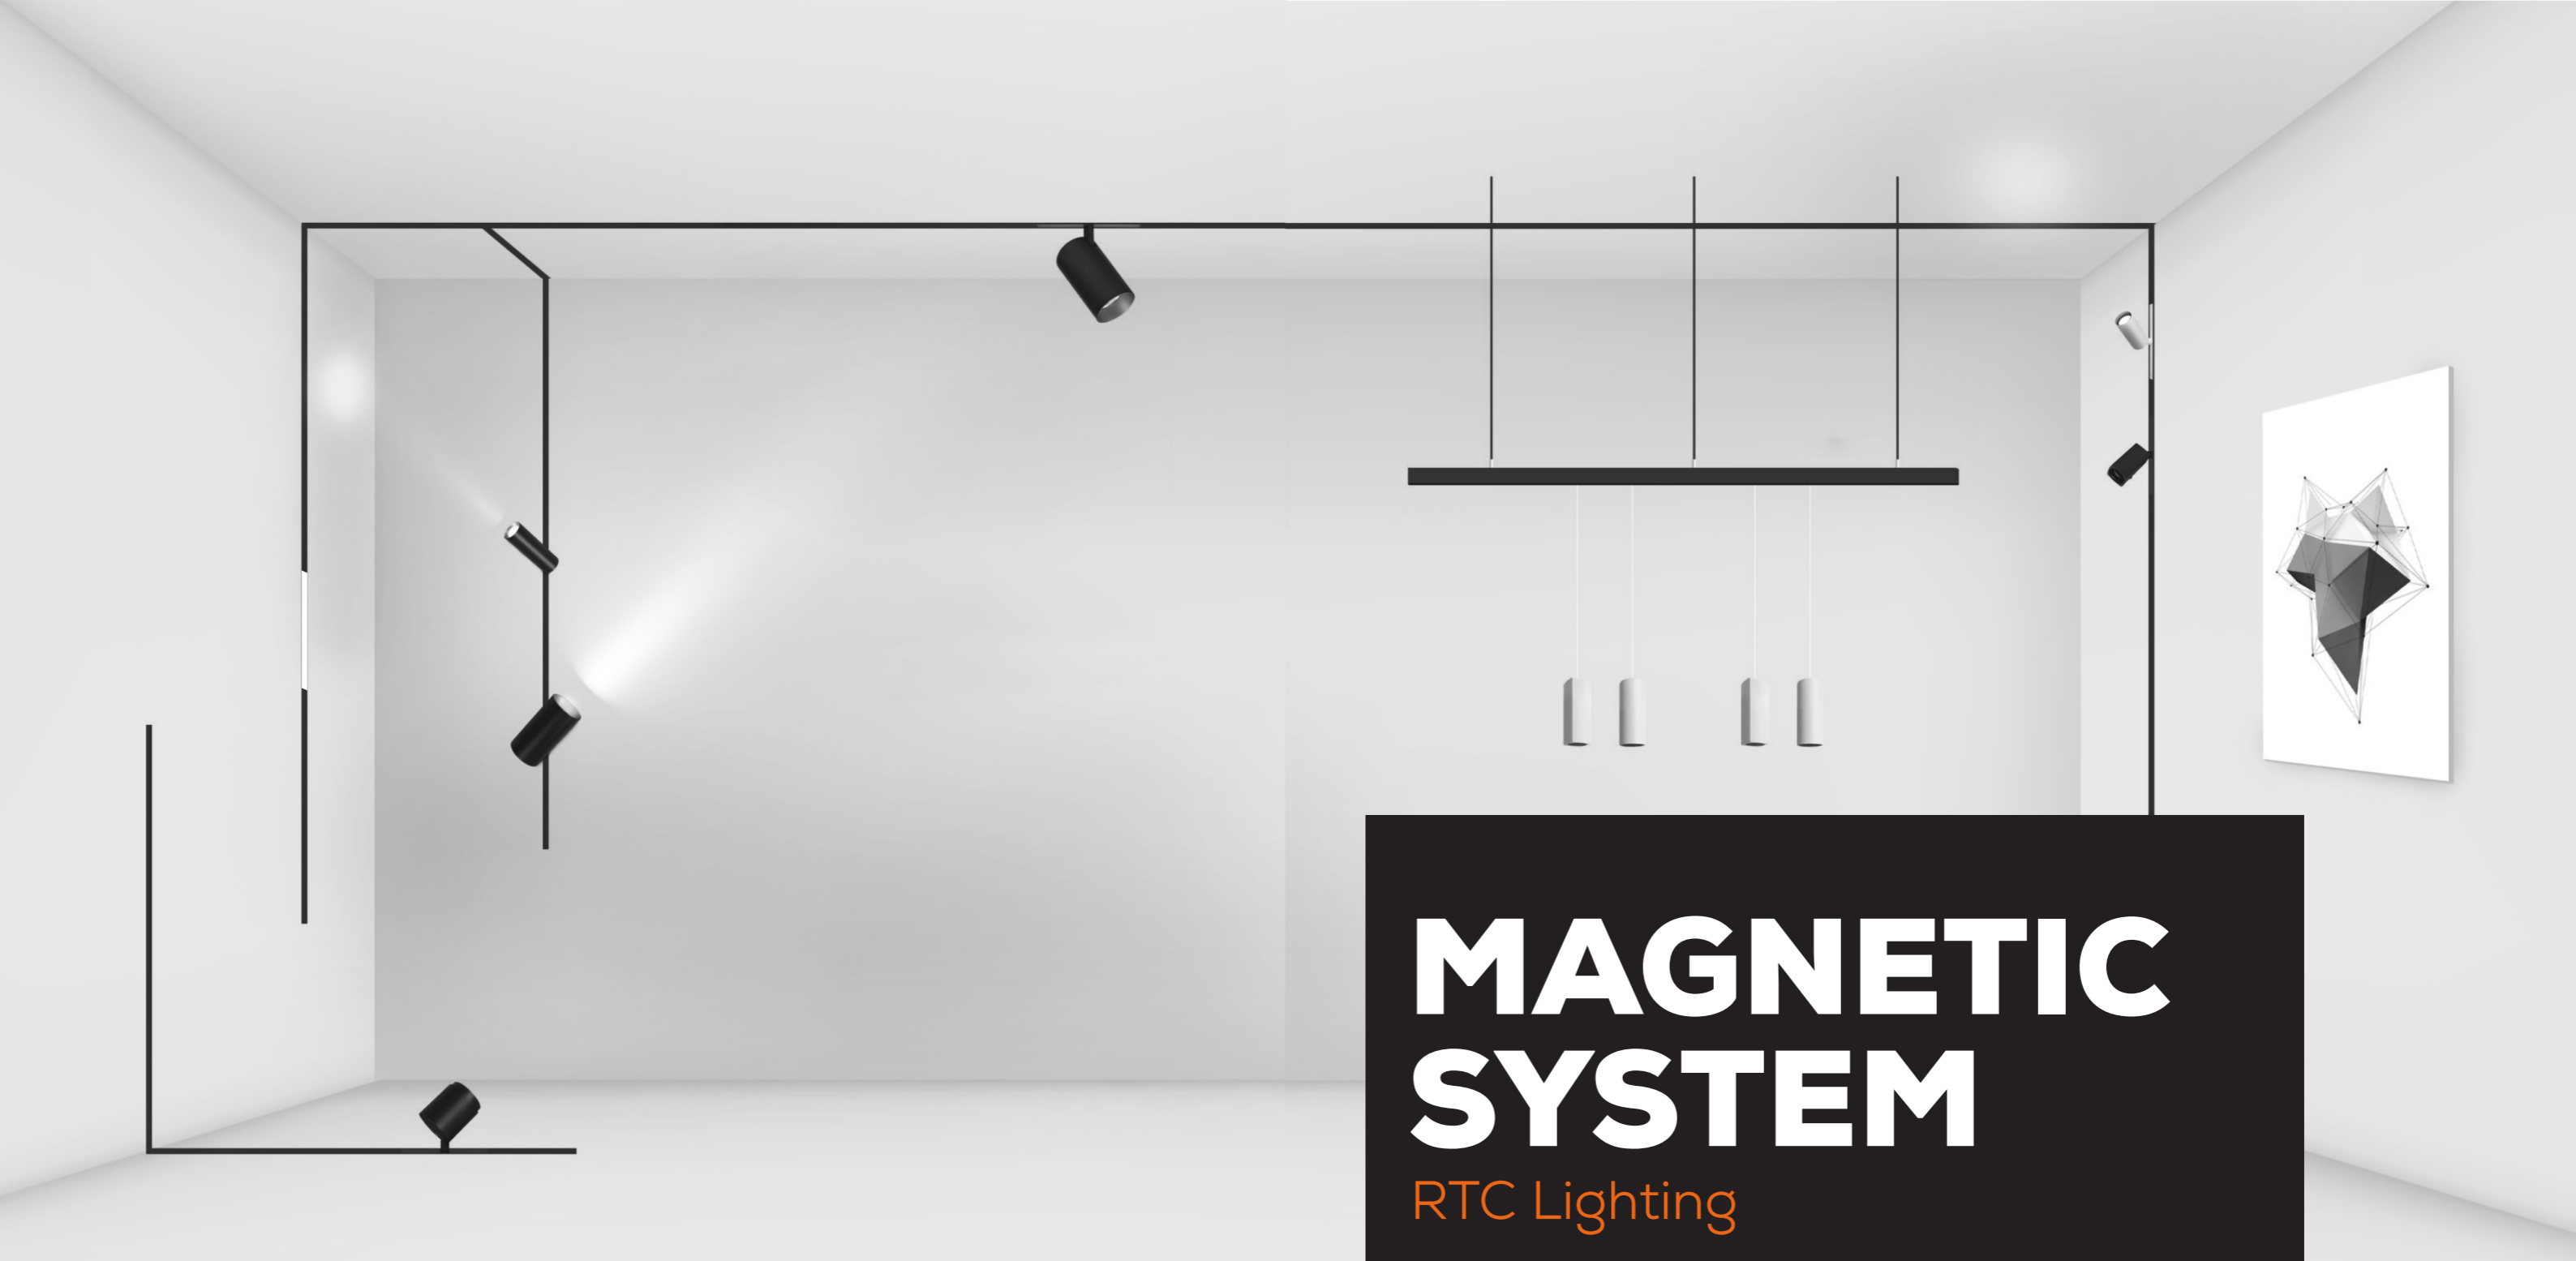

## Lighting Solution Made in RTC Lighting

RTC Lighting is a commercial lighting manufacturer specialized in a diverse range of interior light with exterior light. The product range covers LED recessed downlight, LED track light, LED ceiling light, LED wall light, LED magnetic light system and LED outdoor light.

## Attention to detail & Create perfect quality

Well-equipped apparatus and instruments, and strict quality control throughout all stages of production, Owing R&D team with 7 experienced qualified engineers, 20-10 new items are currently distributed to market every month one stop of complete solution for lighting protects.

Unique imagination and designing, advanced development technologies, Strict quality parameters conformed with standards.

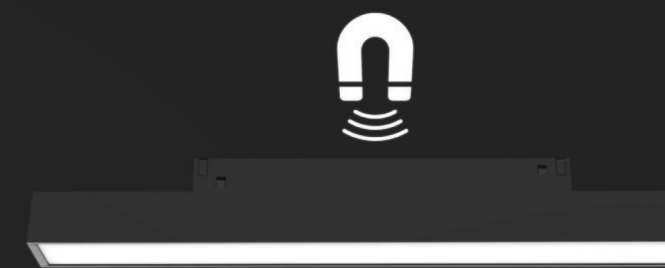

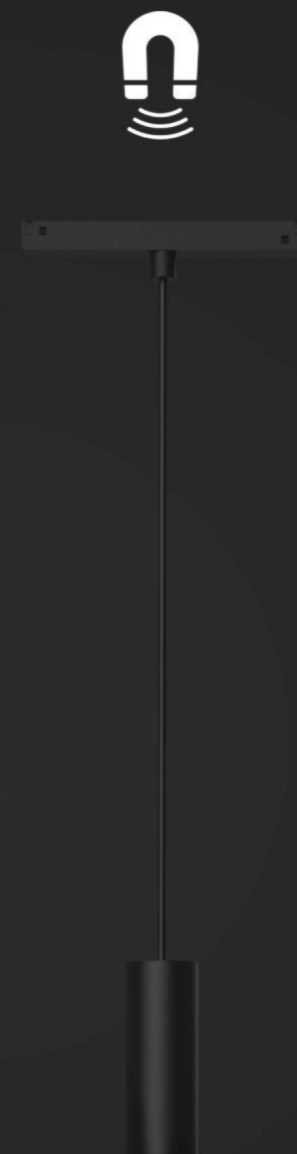

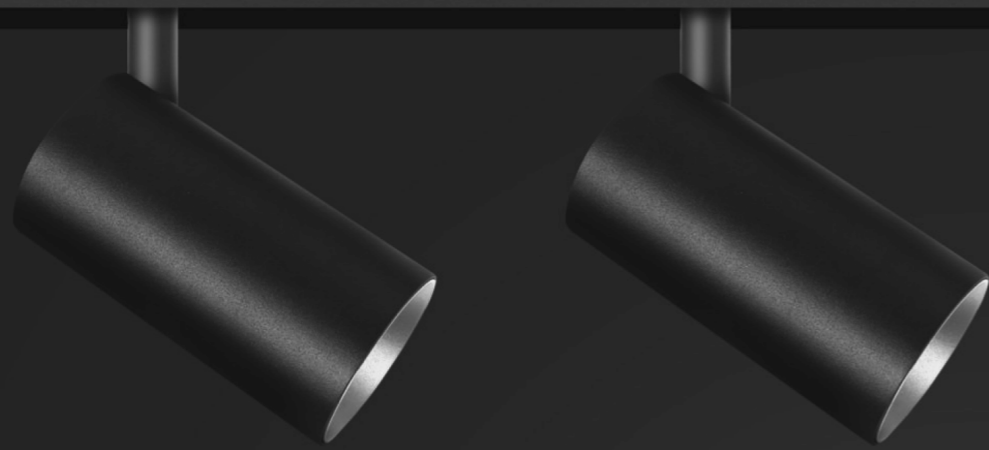

# MAGNETIC SYSTEM

RTC Lighting

## Magnets make life simple

At present, the gradual miniaturization of luminaire has become a trend. People have stricter requirements on the controllability of lighting.

In addition, the need for the installation convenience of the track and the gradual modularization of the luminaire has led to the emergence of low-voltage magnetic tracks. It provides a reliable and flexible connection system for commercial and residential lighting design, and change the hard-mounted luminaire to soft, to save installation and maintenance costs.

## One second installation

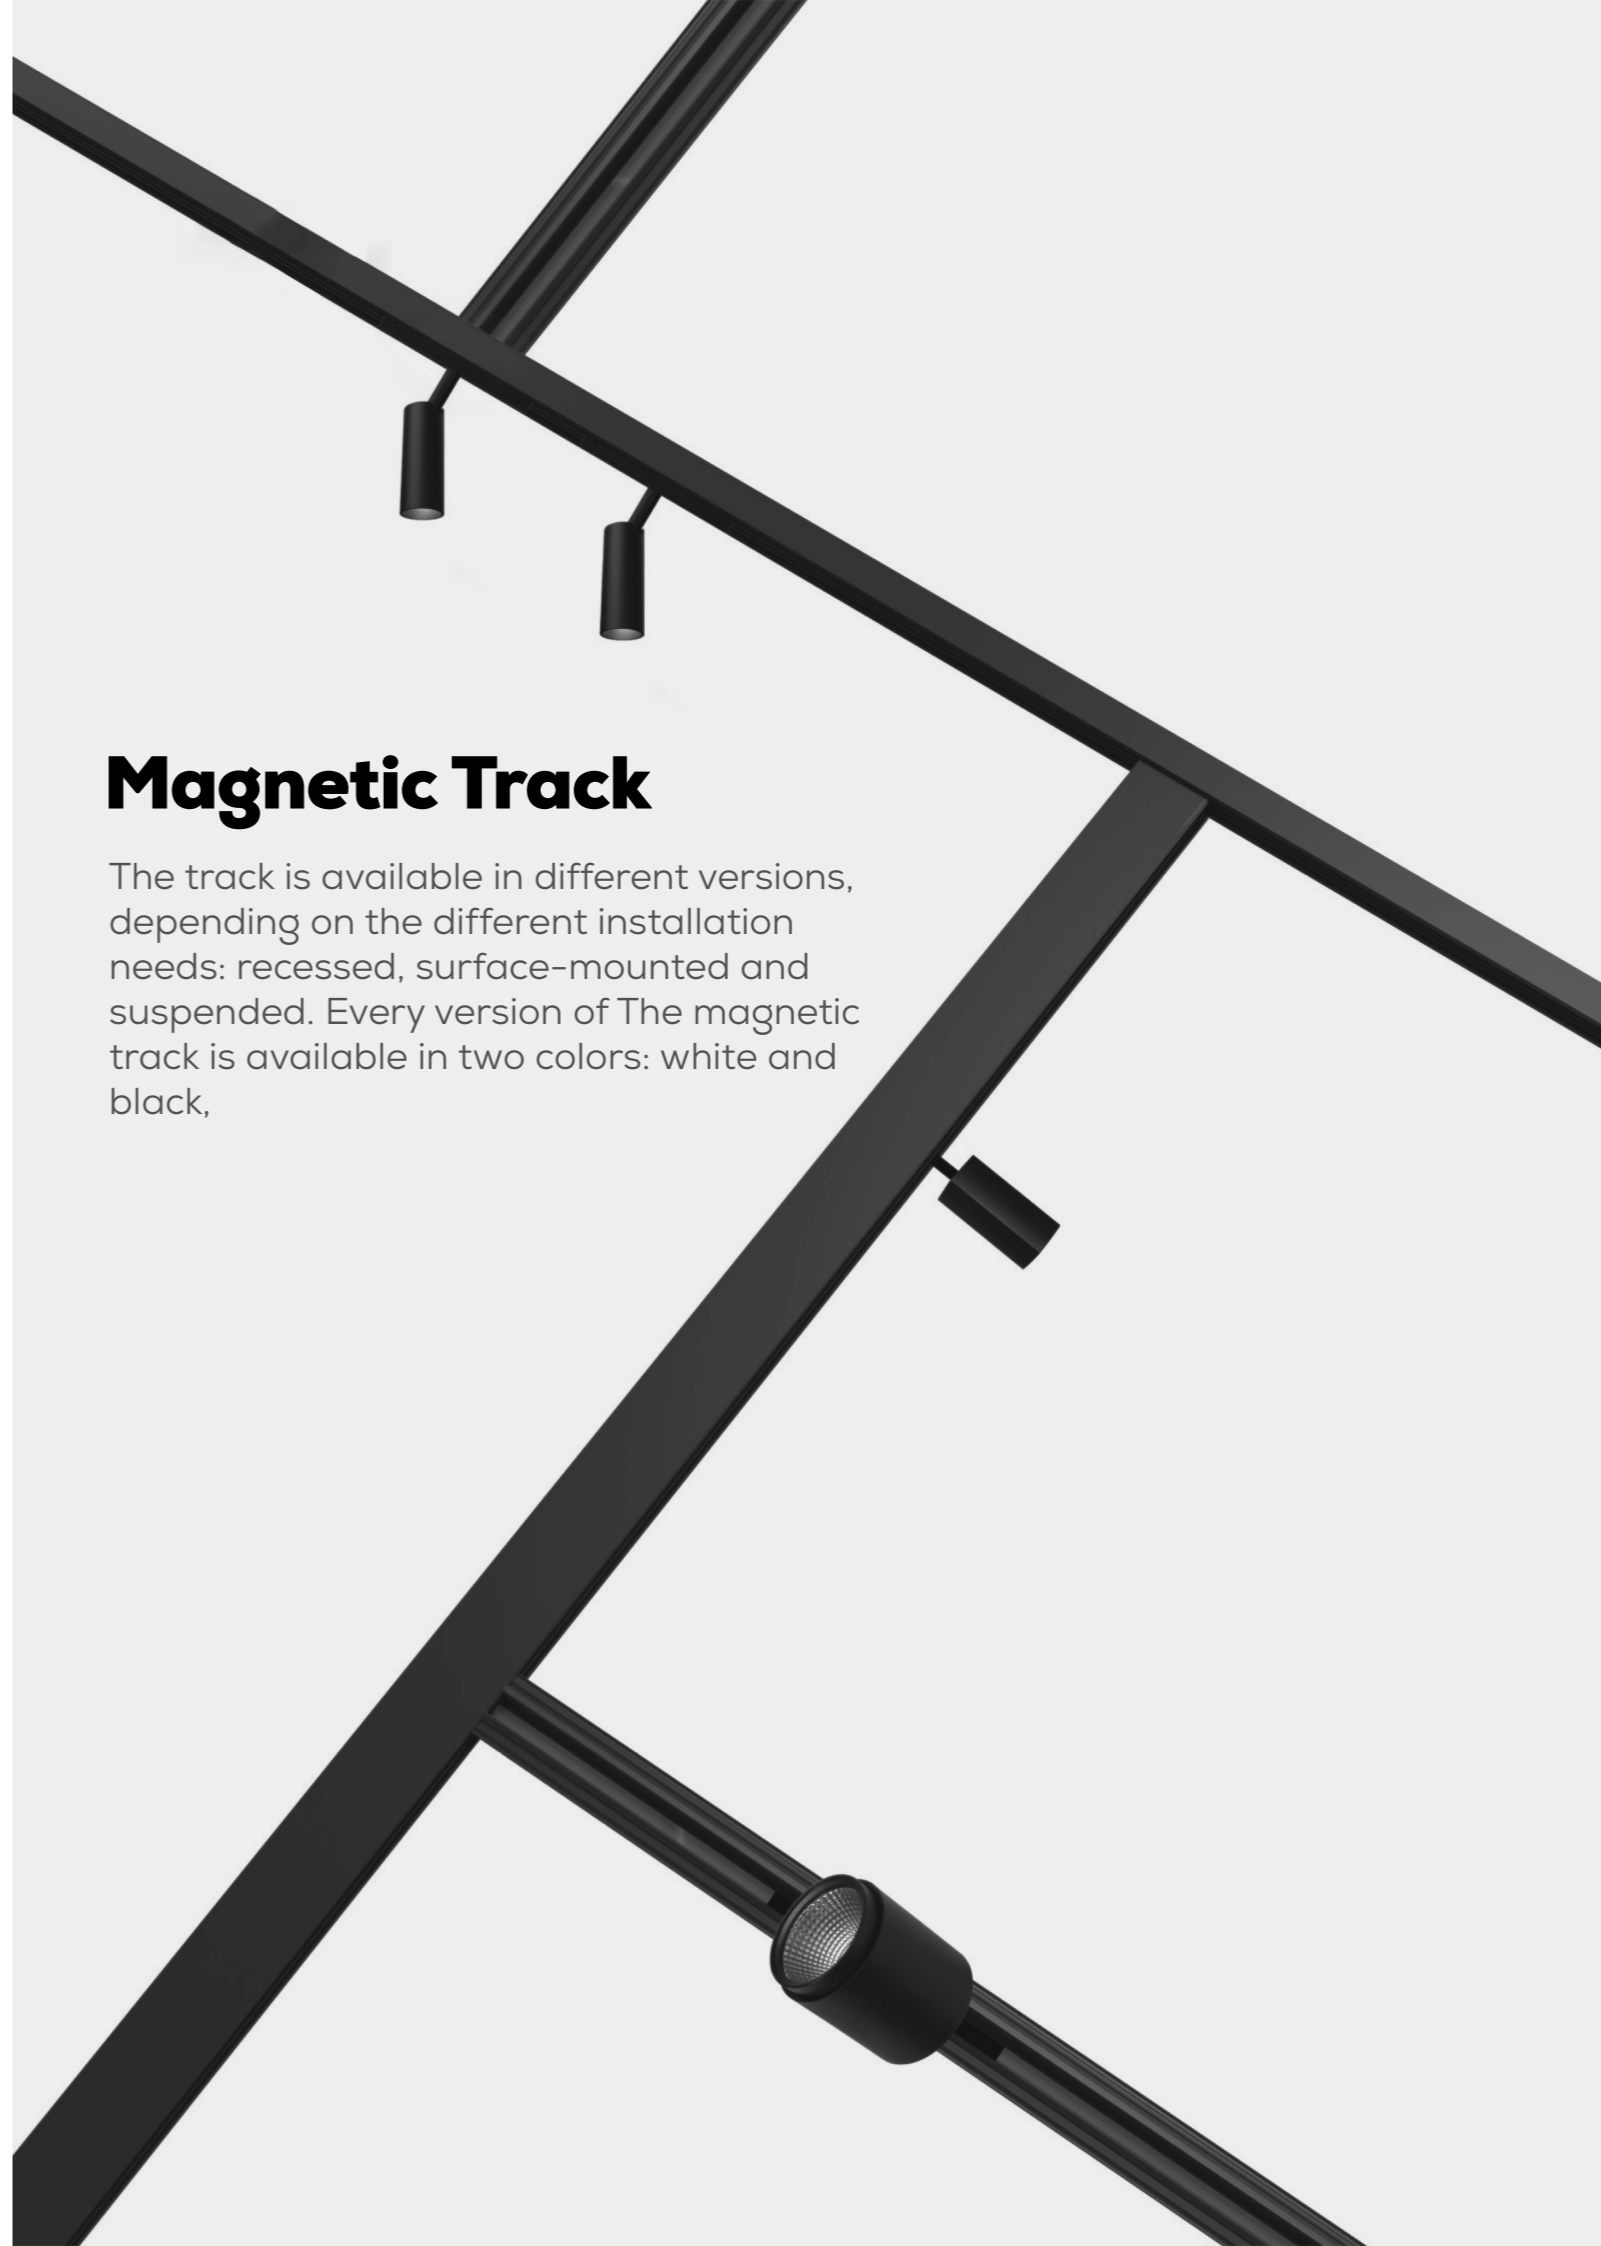

Anywhere in the track, various products can be placed, such as spotlight, linear light and pendant light.

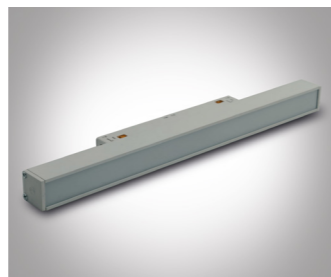

*Lighting is everything*

## **Magnetic Track**

The track is available in different versions, depending on the different installation needs: recessed, surface-mounted and suspended. Every version of The magnetic track is available in two colors: white and black,
